

BREATHER 1 AUTOMATIC RESET

VACLESS SAFETY VACUUM RELEASE SYSTEM

Vacless Safety Vacuum Release Systems not only provide an added layer of protection against suction entrapment, but they also act as a drain winterization device and a surge suppressor extending the life of your pool equipment. This valve is directly attached to the pump by removing the suction side drain plug and installing this SVRS in its place. All of our valves are designed for use on 0.5 to 10.0 horsepower pumps for small and large water recreational installations including hot tubs, spas, fountains, wading and residential or commercial pools.

- Meets the requirements of ANSI / ASME A112.19.17 and complies with ANSI / APSP-7

Vacless Automatic Breather 1

Item Number	Product Description	Price
004-350-1001-00	Vacless Automatic Breather 1 (Vacless Model Number: SVRS10ADJ)	\$450.00

MULTICYCLONE FILTER

SAVE WATER AND REDUCE POOL MAINTENANCE

MultiCyclone is a pre-filtration device that is capable of saving water and reducing filter maintenance.

The MultiCyclone works on the basis of centrifugal water filtration. There are no moving parts to wear and tear, and no filter media to clean or replace.

- Centrifugal water filtration
- Simple installation
- Saves Water
- No filter media to clean or replace
- Two year warranty
- Extends life of filter media
